

HOTELS, RESTAURANTS, ETC.

THE GLENWOOD

A Summer and Winter Resort for Pleasure and Health.

Riverside, San Bernardino County, Cal.

The Glenwood is universally recognized as one of the best and most attractive hotels in the State. It occupies an entire block of two and one-half acres, centrally located, with pleasant surroundings in the way of fruit and ornamental trees, flowers and shrubbery. The building on both sides, are broad balconies, forming fine promenade, aggregating a quarter of a mile in length, and of which the most convenient use is to be found in a fine class hotel. Open porches and stores afford opportunity for free when desired. Parlor, reading room, office and dining room on all first floor, spacious, sunny and convenient. Refer by permission—Riverside, Col. H. B. EYER, formerly of Denver, Col. RIVERSIDE BANK, O. T. Dyer. JAS. BROWN, formerly of New York City. J. H. BENDIS, formerly of New York City. REV. G. M. DEAR, formerly of Minneapolis, Minn. A. WHITE, formerly of New York City. HANSEN, formerly of New York City. E. B. KING, formerly of New York City. A. DENIO, formerly of New York City. M. M. FRIER, formerly of New York City. Total fare from Los Angeles and return \$5.00. Take the Santa Fe train from Los Angeles. FRANK A. MILLER, Proprietor.

THE PICO HOUSE

THE LARGEST AND MOST MODERN HOTEL IN THE CITY. This hotel contains elegant rooms, in a single or double, and is centrally located. The hotel is situated on the corner of Main and Second streets, and is within easy reach of all parts of the city. The hotel is managed by FRANK A. MILLER, Proprietor.

THE COSMOPOLITAN HOTEL

THE POPULAR AND FAVORITE HOUSE. This hotel is situated on the corner of Main and Second streets, and is within easy reach of all parts of the city. The hotel is managed by FRANK A. MILLER, Proprietor.

REVERE HOUSE

First Street, below Los Angeles.

LOS ANGELES DAILY TIMES.
(County Official Paper.)BY ARNOLD, CAYLIE, MATHEWS & OTIS.
Office No. 9 Temple Street.

Publishers' Announcements.

THE LOS ANGELES DAILY TIMES has a regular, permanent, home file circulation very much larger than that of any other daily paper published in the city, and is prepared to receive at all times orders for advertising space.

FOR ADVERTISING THE TIMES has the only available space of any size in the city, and is prepared to receive at all times orders for advertising space.

THE TIMES can be found at the news-stands of the Pacific and Occidental Hotels and at the House, San Francisco.

THE TIMES OFFICE is connected with the telephone system of this city, and those desiring to advertise in the paper can do so by this means.

TEN DOLLARS REWARD.—The proprietors of the TIMES will give a reward of \$10 for information that will lead to the arrest and conviction of any person guilty of the crime of murder.

CORRESPONDENCE on topics solicited from all quarters. Local affairs and news given the preference. Correspondents are asked to contribute accurately, briefly, clearly, concisely and truthfully; to use one side of the sheet only, to write plain English, and to send true names. Unless in special cases, contributions will receive no attention.

PRINTING.—There is nothing in the printing house which the TIMES-MIRROR Printing, Binding and Engraving Department is not prepared to execute in a manner equal to that of any office in the State. Satisfaction guaranteed.

BOOK-BINDING.—Books, magazines and pamphlets bound in Turkish leather, Morocco, cloth, etc., in any style desired at the TIMES-MIRROR Binding. Our work is guaranteed to be equal to that done in San Francisco.

WOOL AND WOOL-GROWERS.

A very good suggestion is that for the holding of a wool-growers' convention in Sacramento on one or more days of the next exposition of the State Agricultural Society; and, as the proposition appears to be meeting with general acquiescence as to time and place, the probability is that this year will see the birth of an organization which properly should have had an existence for many years in California. If it is once organized on a sound basis, there is nothing to prevent its becoming a permanent institution, capable of working much good to the wool-growing interests of the State. In the East and North-west the leading wool-growing States each has its State wool-growers' association. Vermont, New York, Pennsylvania, Ohio, Michigan and other States are so supplied, while the National Association of Wool Manufacturers, with headquarters in Boston, has been in existence many years, and has grown into a very important organization, with power to make its influence felt in shaping legislation of the wool tariff and otherwise promoting the interests of wool men.

This State is so important as a wool-growing region that the necessity and advantage of such an association as we have indicated are obvious. The Sacramento Record-Union, favoring the proposition for holding a convention next Fall, says:

Wool interests in California may be much enhanced by unity of effort and exchange of views among all engaged in the industry. The time selected is at a date when the result of the clip for 1882 will be known with reasonable certainty, and the place and occasion will enable the wool-growers and dealers to meet representative men from all parts of the State. Properly conducted, the convention can be made the means of imparting much useful information, and of greatly stimulating the industry to be considered by the delegates, and we presume the delegates will be open to all parties engaged in wool-growing to any considerable extent.

Our contemporary does not suggest the formation of a permanent organization, which the TIMES does. Such an organization will doubtless be the outcome of a successful meeting of the wool-growers of the State at Sacramento.

The effect of the new tariff on the wool of wool will be known by that time. The TIMES recently published synopsis of the duties on the various wools and grades. The decline in prices will probably be slight.

There will be no lack of important questions, vitally affecting the interests of the wool-grower, to be brought before the convention when held. The matters of breeding sheep, of shearing, washing, sorting, grading and shipping wools—all these, and other practical subjects, will naturally come up for consideration and discussion. Great progress has already been made in California, in the course of our quarter century's experience as a wool-growing State, in the improvement of the blood of her flocks; but there is still a large margin for improvement in that respect. Our skillful and intelligent sheep-breeders have brought their stock up to the standard of a few or four pounds from each animal of the old, common breeds, flocks the present day, of pure blood or grade, now yield an average of six, seven or even eight pounds of wool per animal. Where the wool is still making this rule out of the State.

matter of putting wools on the market is one of prime importance, in that they are sent to the commission merchant or manufacturer in a way, full of dirt and burs, inevitably graded low and low price. Where the wool of an entire section has got a "black eye" in the because of the shipment of a slovenly-put-up lot, it is to claim their reputation. For the interest of growers and the standard should be raised, and a fixed standard established for our California wools on the basis of the quality of the wool-growers should be had, to that the fame and value of our wool, amounting to millions of dollars, may be kept up and in it can be done.

Express is deeply incensed at the because it had the temerity to lack of courteous attention to, but not exhibited to distinguished visitors, Dana and Dornheimer, Los Angeles. Now, the belittling of the wool-growers' convention, the foot of things type probably, press or imposture.

Not—July, the subject of attack on every side, he brings about great confusion in the language of the inner of the Union. General Grant Putnam, "Mein Gott, I was rabid!" he has dined it, and he did bring his volleys doesn't consider her him. The Citizen lives 10 or 15 years ago. The last time it appears on fifty-five years ago. The more will it elude the "as and Courier exclaims: mule-meat and fricassee killed State!" The appeal is Southern wares to such little labor, and industry. This is the last wall-paper of something, and is, excepting this note, for 1880.

types as we found them. It is a reliable heretofore as a current light; it is a great certainty.

MISCELLANEOUS.

It now appears that the heretofore generally accepted story of the burning of Alexandria is a fiction. The London Army and Navy Journal tells just how it was done. The town was fired by the shells of the British men-of-war. It appears the sights of the guns were incorrect, and that in consequence the range was increased, causing the shells to fly over the forts and fall in the town. The mistake is blamed upon the Woolwich authorities who adopted the "gas check" and applied it to the base of all naval projectiles, but neglected to inform the Admiralty of the change. So it was not Arabi Pasha, but the English, who set fire to Alexandria. Arabi has been abused throughout the whole civilized world for a crime of which he is innocent. The civilized world ought to apologize to the English.

This President made a "hit" when he selected General Gresham for Postmaster-General. The appointment seems to be approved by every shade of political opinion and by all classes. Surprise has been expressed that he should relinquish a life-appointment with a fair salary, where his duties were such as to enable him to regulate his hours of labor, his goings and comings, for a stormy and unsatisfactory position in the Cabinet for less than two years, at a salary which will be more than absorbed by the necessities of his new position. But it is known that he was growing dissatisfied with the confinement of the bench; that he suffers from his severe wound, and he was probably glad of an opportunity to give up his judicial position for the higher post, especially when the promotion came to him so gracefully, being entirely unsought.

The Express crawfishes, finding that its idea about brass bands, bonfires, artillery and ordnance, as projectiles to be fired at the heads of visitors as the highest possible evidences of hospitality, has been laughed at on the streets, it now asks us to believe that its remarks were not to be interpreted literally. This is almost as diaphanous as the claims of that masquerading sheet to the title of an independent journal.

The first issue of the Santa Rosa Republican under its new management, that of Messrs. O'Meara and Fitch, is at hand. The opening words of the editor, Mr. James O'Meara, are strong, timely and good, outlining a course which will almost certainly result in making his journal a success, and a power in the county and State. The TIMES wishes its Sonoma contemporary large success.

It is said that Los Angeles is to have a Democratic newspaper after the style of the Examiner—Examiner.

It is thus that Providence distributes afflictions upon the just and unjust alike.—San Jose Mercury.

Providence thought better of it, and the new Democratic paper is not to arise at present. This is fresh proof to us that Providence is good to Los Angeles.

The Express pretends to believe that it has succeeded in making the TIMES "realize" that it has assumed a naughty, naughty position towards "this community" on the subject before the house. The TIMES realizes no such thing. It is a comparatively few individuals only that we have antagonized in this matter. They are not "this community."

The idea of the Express, as elaborated by itself, is to "hooray" over noted men "in times of political excitement and on many special occasions," but to neglect them at other times. The Express can't get the brass band and bonfire business out of its supposed brain.

In its attempts to antagonize the TIMES, whether or no, the Express founders. It has a bad case, and the work of defending it is laborious and long drawn out. If the editor's efforts were more inspected, we suspect that it would be found reeking with cold sweat.

A new sleeping-car, the invention of John A. Fleischer, of the Troy Times, will, it is claimed, revolutionize that branch of railroad business. The seats extend across the width of the car, and are all changed into private state-rooms at night.

When the Express wrestles with a subject that it doesn't understand its editorials are correspondingly diluted and dreary. An Express editorial is always diluted and dreary.

The Express unblushingly admits that it is a tail to the Herald's kite. And it actually seems to be proud of the fact!

Judge O. N. Denny, Consul-General at Shanghai, is in San Francisco. Henry Villard, President of the Northern Pacific, passed through Chicago on Wednesday on his way to Oregon to inspect the Oregon Railway and Navigation Company's lines, of which he is also President.

The Wages of Sin. Hon. J. Marion Brooks, the fraudulently seated Senator from Ventura and San Luis Obispo counties, is having a hard time of it. Notwithstanding he was received at his home by a number of admiring friends armed with a brass band, he has found that political success, particularly when attained by questionable means, does not always lead to happiness. The columns of the papers in his Senatorial District have ever since teemed with communications bristling with condemnations which the Senator, made such by the arbitrary action of a partisan Senate, found it very difficult to answer in numerous epistolary attempts to that end, and the warfare, conducted by antagonists of both parties, shows no sign of ending. When in the future, some one shall draw for him a picture of a politician fraudulently holding an office, repudiated by his own party constituents, and the subject of attack on every side, he will bring about great confusion in the language of the inner of the Union.

General Grant Putnam, "Mein Gott, I was rabid!" he has dined it, and he did bring his volleys doesn't consider her him. The Citizen lives 10 or 15 years ago. The town was fired by the shells of the British men-of-war. It appears the sights of the guns were incorrect, and that in consequence the range was increased, causing the shells to fly over the forts and fall in the town. The mistake is blamed upon the Woolwich authorities who adopted the "gas check" and applied it to the base of all naval projectiles, but neglected to inform the Admiralty of the change. So it was not Arabi Pasha, but the English, who set fire to Alexandria. Arabi has been abused throughout the whole civilized world for a crime of which he is innocent. The civilized world ought to apologize to the English.

This President made a "hit" when he selected General Gresham for Postmaster-General. The appointment seems to be approved by every shade of political opinion and by all classes. Surprise has been expressed that he should relinquish a life-appointment with a fair salary, where his duties were such as to enable him to regulate his hours of labor, his goings and comings, for a stormy and unsatisfactory position in the Cabinet for less than two years, at a salary which will be more than absorbed by the necessities of his new position. But it is known that he was growing dissatisfied with the confinement of the bench; that he suffers from his severe wound, and he was probably glad of an opportunity to give up his judicial position for the higher post, especially when the promotion came to him so gracefully, being entirely unsought.

The Express crawfishes, finding that its idea about brass bands, bonfires, artillery and ordnance, as projectiles to be fired at the heads of visitors as the highest possible evidences of hospitality, has been laughed at on the streets, it now asks us to believe that its remarks were not to be interpreted literally. This is almost as diaphanous as the claims of that masquerading sheet to the title of an independent journal.

The first issue of the Santa Rosa Republican under its new management, that of Messrs. O'Meara and Fitch, is at hand. The opening words of the editor, Mr. James O'Meara, are strong, timely and good, outlining a course which will almost certainly result in making his journal a success, and a power in the county and State. The TIMES wishes its Sonoma contemporary large success.

It is said that Los Angeles is to have a Democratic newspaper after the style of the Examiner—Examiner.

It is thus that Providence distributes afflictions upon the just and unjust alike.—San Jose Mercury.

Providence thought better of it, and the new Democratic paper is not to arise at present. This is fresh proof to us that Providence is good to Los Angeles.

The Express pretends to believe that it has succeeded in making the TIMES "realize" that it has assumed a naughty, naughty position towards "this community" on the subject before the house. The TIMES realizes no such thing. It is a comparatively few individuals only that we have antagonized in this matter. They are not "this community."

The idea of the Express, as elaborated by itself, is to "hooray" over noted men "in times of political excitement and on many special occasions," but to neglect them at other times. The Express can't get the brass band and bonfire business out of its supposed brain.

In its attempts to antagonize the TIMES, whether or no, the Express founders. It has a bad case, and the work of defending it is laborious and long drawn out. If the editor's efforts were more inspected, we suspect that it would be found reeking with cold sweat.

A new sleeping-car, the invention of John A. Fleischer, of the Troy Times, will, it is claimed, revolutionize that branch of railroad business. The seats extend across the width of the car, and are all changed into private state-rooms at night.

When the Express wrestles with a subject that it doesn't understand its editorials are correspondingly diluted and dreary. An Express editorial is always diluted and dreary.

The Express unblushingly admits that it is a tail to the Herald's kite. And it actually seems to be proud of the fact!

Judge O. N. Denny, Consul-General at Shanghai, is in San Francisco. Henry Villard, President of the Northern Pacific, passed through Chicago on Wednesday on his way to Oregon to inspect the Oregon Railway and Navigation Company's lines, of which he is also President.

The Wages of Sin. Hon. J. Marion Brooks, the fraudulently seated Senator from Ventura and San Luis Obispo counties, is having a hard time of it. Notwithstanding he was received at his home by a number of admiring friends armed with a brass band, he has found that political success, particularly when attained by questionable means, does not always lead to happiness. The columns of the papers in his Senatorial District have ever since teemed with communications bristling with condemnations which the Senator, made such by the arbitrary action of a partisan Senate, found it very difficult to answer in numerous epistolary attempts to that end, and the warfare, conducted by antagonists of both parties, shows no sign of ending. When in the future, some one shall draw for him a picture of a politician fraudulently holding an office, repudiated by his own party constituents, and the subject of attack on every side, he will bring about great confusion in the language of the inner of the Union.

General Grant Putnam, "Mein Gott, I was rabid!" he has dined it, and he did bring his volleys doesn't consider her him. The Citizen lives 10 or 15 years ago. The last time it appears on fifty-five years ago. The more will it elude the "as and Courier exclaims: mule-meat and fricassee killed State!" The appeal is Southern wares to such little labor, and industry. This is the last wall-paper of something, and is, excepting this note, for 1880.

MISCELLANEOUS.

It now appears that the heretofore generally accepted story of the burning of Alexandria is a fiction. The London Army and Navy Journal tells just how it was done. The town was fired by the shells of the British men-of-war. It appears the sights of the guns were incorrect, and that in consequence the range was increased, causing the shells to fly over the forts and fall in the town. The mistake is blamed upon the Woolwich authorities who adopted the "gas check" and applied it to the base of all naval projectiles, but neglected to inform the Admiralty of the change. So it was not Arabi Pasha, but the English, who set fire to Alexandria. Arabi has been abused throughout the whole civilized world for a crime of which he is innocent. WE BRING GLAD TIDINGS!

HEALTH!

HEALTH!

HEALTH! HEALTH! HEALTH! HEALTH!

Health! Health! Health!

Health Restored and Life Prolonged to Suffering Humanity, for the Most Wonderful Curative Agents Ever Discovered!

CONSULTATION FREE.

I INVITE THE SICK, no matter what their disease may be, to call and investigate for themselves, before abandoning all hope, for I will want you nothing. I give no encouragement unless there is a fair prospect of making a cure. I will endeavor to be candid in my opinion, and responsible in my charges. I claim not to cure everybody, but to cure all that can be cured. I am formerly from New York city, and a graduate of one of the best medical colleges in the United States, and a most thorough scholar. Write for a free circular.

in the treatment of both acute and chronic disease, and have many many years successful practice to prove the truth of what I claim. To remove all doubts and convince my patients that I claim nothing but what I can, I refer to my diplomas and the numerous recommendations in my possession, which will always be ready to the inspection at my office.

I have located permanently in this city, and all I ask is that you give me a fair, unbiased trial, by which I hope to merit your confidence and give entire satisfaction to all suffering humanity. My reputation has been acquired by candid, honest dealing, and years of successful practice. I know the cause and the remedy needed, not by guess-work, but by years of experience in the treatment of various diseases.

I HAVE NO ONE CURE-ALL!

Nor do I make a hobby of any one mode of treatment. I use Electricity or Medicines, or both, as cases may require. I believe in proving all things, and in holding fast to that which is good; and the only way to promote a cure is to remove the poison and build up the system by eating the obstructed excretory organs to their proper duty. I find the cause, remove it, and nature, assisted by medicinal remedies properly applied, will promote a cure without fail.

TO THE LADIES!

To the ladies I would say: You, whose sufferings have become intolerable, and who have suffered a thousand deaths from those diseases so common to your sex, give me a call, for

I Can Cure You Without Fail!

And make your lives once again worth living for. And all consultations will be strictly private and confidential.

YOUNG MEN!

To those young men who are suffering from year to year, and whose vital powers have become impaired, and nervous system, shattered and broken down, and are suffering all the horrors from the effects of youthful follies,

Come and See Me!

I have a sure preventative of premature decay and early death. To those who from indiscretion have contracted private diseases, and are desirous of being cured, come without fail, for I can guarantee you a speedy cure.

I treat with success all diseases of the

Throat, Lungs, Heart, Stomach, Liver, Head, Nerves, Kidneys, Bladder, Womb, Blood, Affections of the Urinary Organs, Gravel, Piles, Scrofula, Rheumatism, Catarrh, Bronchitis, Dyspepsia, Diseases of the Eye and Ear, Etc., Etc.

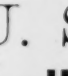

CONSULTATIONS AT MY OFFICE,

275 Main Street, Opposite Baker Block

Rooms 11 and 12,
From 9 to 12 A. M., 1 to 5 and 6 to 8 P. M.
Residence Cor Hill and Sixth Streets.

I will personally answer all postal summonses. All correspondents desiring an answer should inclose a postage stamp and address.
